

GOOD FOOD IS THE FOUNDATION
OF GENUINE HAPPINESS

OUR AIM IS TO OFFER SIMPLE, FRESH, GOOD FOOD

Dining out or ordering in? This question arises in everyone's life at least 3-4 times a week. Although in our day and age there are multiple options ranging from restaurant chains and multicuisine diners, the food tastes synthetic and has the characteristic taste and flavour. Simply because each restaurant is offering essentially the same thing & the consumers end up paying heavily each time. The entire value of authentic cuisine lies in the fresh preparation by dedicated chef which cant be achieved in a hectic, fast-paced, profit-oriented restaurant environment. However, Cook4 has been devised to change this phenomenon & connect consumers with cooking enthusiasts to create a better system of food fulfilment.

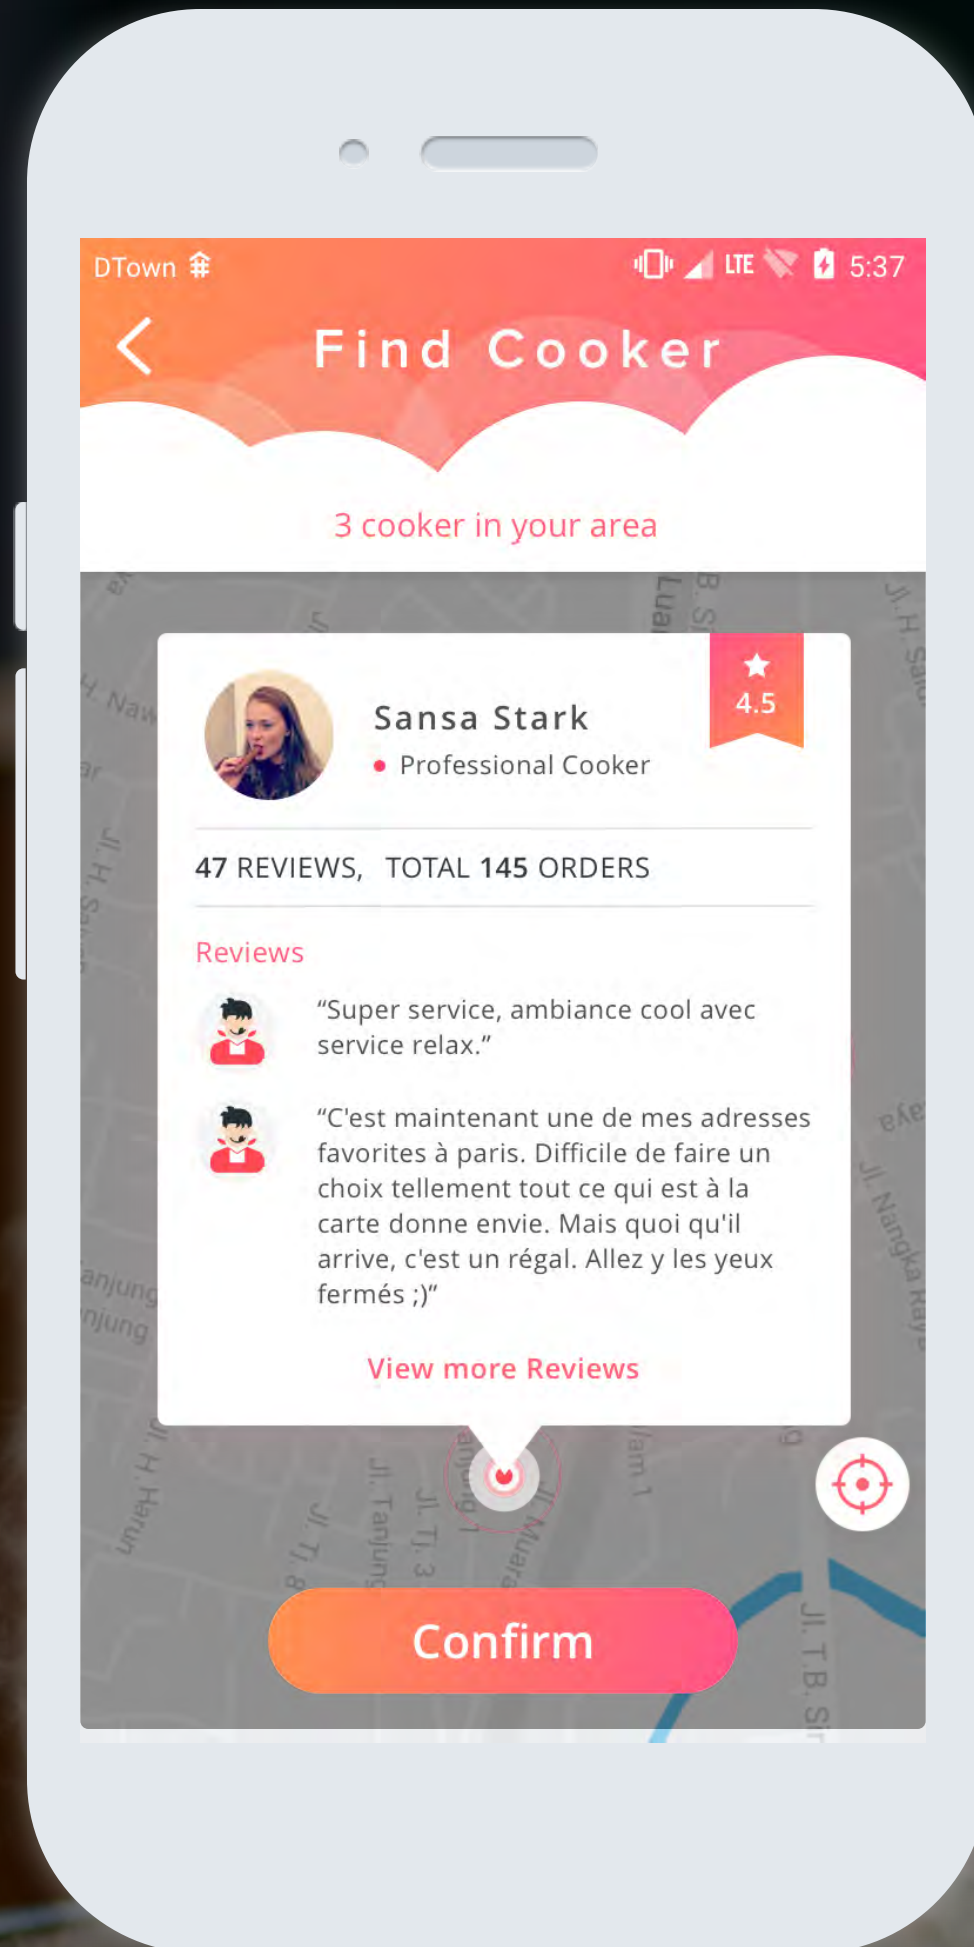

BY EL GROUP INTERNATIONAL

Cook4 helps you order home-cooked food made by genuine cooks (chefs) who are located in your vicinity. These cooks are pro at preparing meals that have true indigenous taste and flavour. These cooks can prepare a wide variety of meals ranging from the Mediterranean, African, Asian, Chinese, etc. Such quality and original flavour are not available on the menu of restaurants. It's like a friend cooking especially for you.

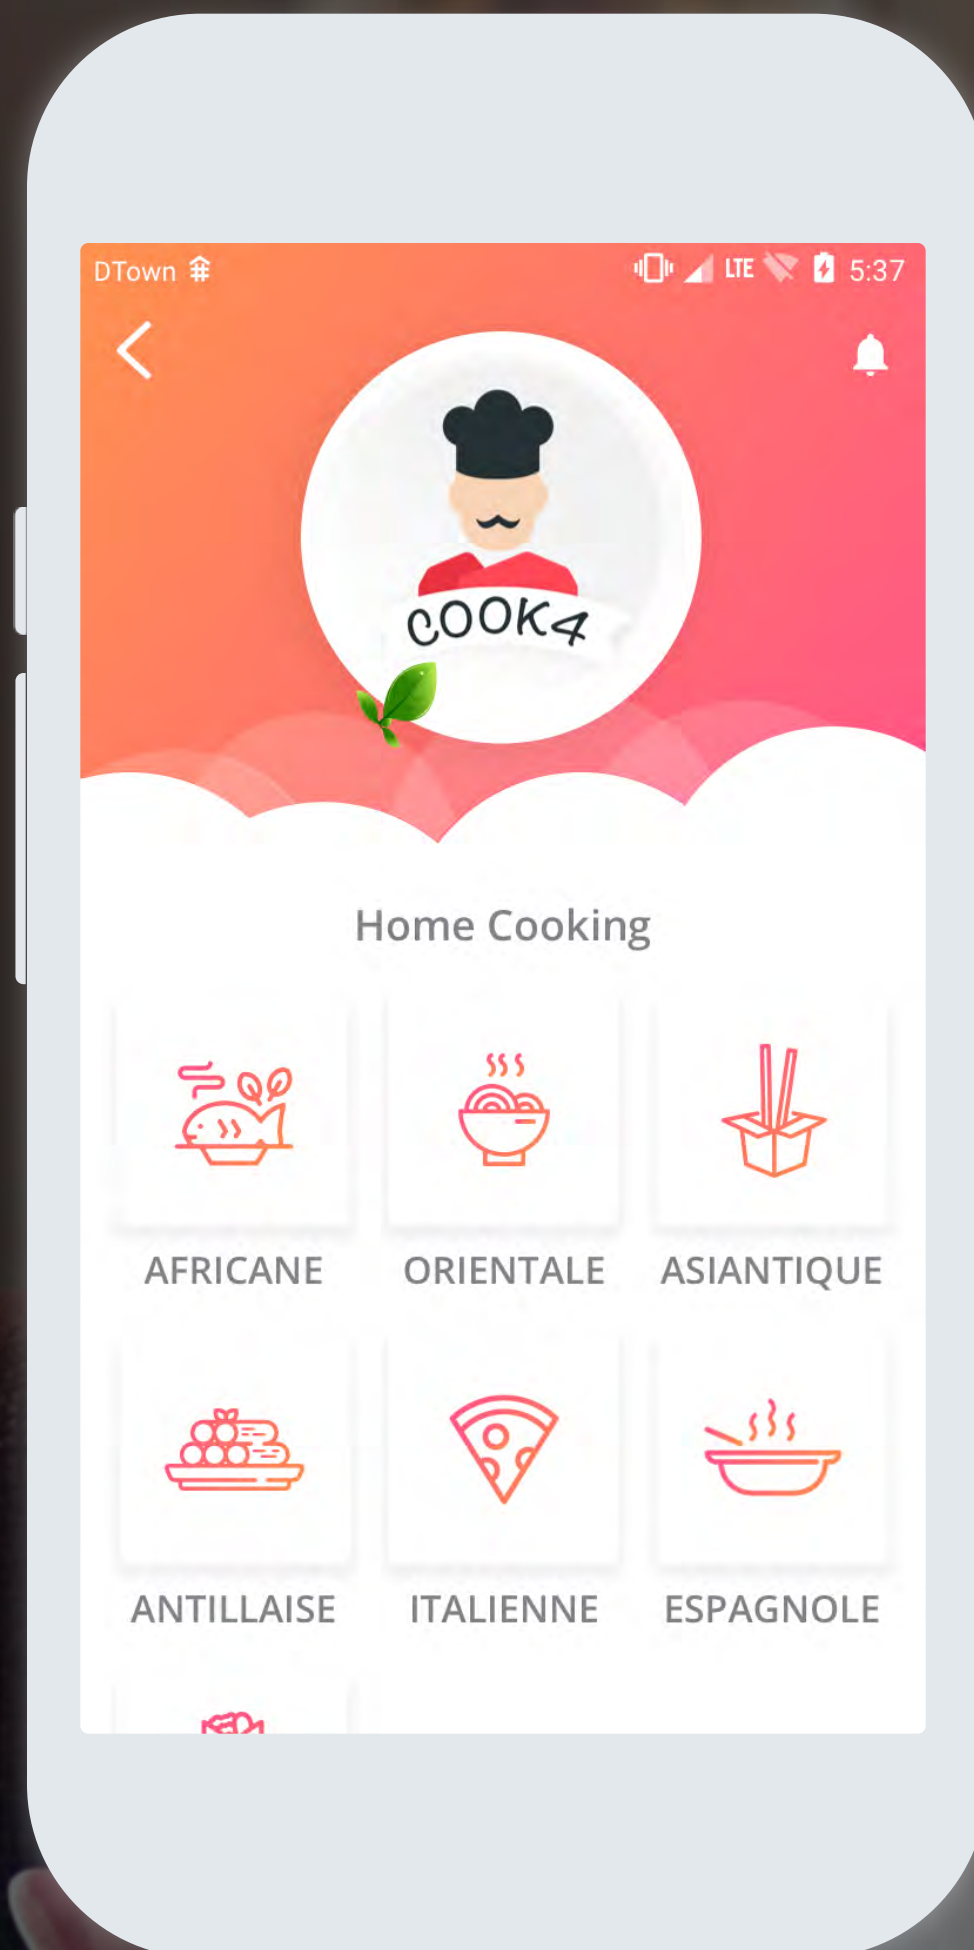

HOW THE APP WORKS

The customer downloads the app, filters through a list of cooks specific to the customer's location. The customer order the food sharing his address, email id, name. Along with the request, the customer sends a copy of identity document and statement of a bank account. The cook who can also be the delivery person, a service for which he will be paid by the customer, remains in constant touch with the customer to ensure everything goes in the best manner until the food is delivered

VALUE FOR MONEY

Cook4 solves problems that are twofold, users can order home-cooked meals with paying exorbitant prices. We are all aware of unreasonable charges in restaurants. All kinds of fees and tips on top. Cooks on Cook 4app not only provides genuine home cooked food but the charges are way less than what you have to pay for in restaurants for the same or inferior dishes. Even the delivery time is comparatively less and the food is always warm.
